Safety information

Important information

Read these instructions carefully and look at the equipment to become familiar with the device before trying to install, operate, service, or maintain it. The following special messages may appear throughout this manual or on the equipment to warn of potential hazards or to call attention to information that clarifies or simplifies a procedure.

The addition of either symbol to a “Danger” or “Warning” safety label indicates that an electrical hazard exists which will result in personal injury if the instructions are not followed.

This is the safety alert symbol. It is used to alert you to potential personal injury hazards. Obey all safety messages that accompany this symbol to avoid possible injury or death.

DANGER

DANGER indicates a hazardous situation which, if not avoided, **will result in** death or serious injury.

Failure to follow these instructions will result in death or serious injury.

WARNING

WARNING indicates a hazardous situation which, if not avoided, **could result in** death or serious injury.

CAUTION

CAUTION indicates a hazardous situation which, if not avoided, **could result in** minor or moderate injury.

NOTICE

NOTICE is used to address practices not related to physical injury.

Unica - Connected Relay Switch 10 A

For your safety

⚠ DANGER

HAZARD OF ELECTRIC SHOCK, EXPLOSION, OR ARC FLASH

Safe electrical installation must be carried out only by skilled professionals. Skilled professionals must prove profound knowledge in the following areas:

- Connecting to installation networks.
- Connecting several electrical devices.
- Laying electric cables.
- Safety standards, local wiring rules and regulations.

Failure to follow these instructions will result in death or serious injury.

About the device

The Connected Relay Switch 10 A (hereinafter referred to as **Relay Switch**) is a push button device that can be used to switch LED, ohmic, inductive or capacitive loads manually or remotely.

Control options

Home control: To control the relay switch through the Wiser app you will need the Wiser Gateway.

Direct operation: The relay switch can always be controlled directly on-site. You can also connect any number of mechanical push-buttons.

Installing the device

Refer to the installation instruction supplied with this product.

See Connected Relay Switch 10A.

Pairing the device

Using the Wiser app, pair your device with the **Gateway/Hub** to access and control the device. You can either add the device manually or do an auto-scan to pair it.

Pairing device manually

To pair the device manually:

1. On **Home** page, tap **+**.
2. Tap , select the required **Wiser Hub** on the slide-up menu.
3. Select an option to add the device(A):
 - **Add Device with Install Code**
 - **Add Device without Install Code**

TIP: It is highly recommended to add the device with install code.

4. To pair the device with an install code, tap **Add Device with Install Code** to display the slide-up menu. Select any one of the options (B):
 - **Scan Install Code** - you can scan the device for the install code.
 - **Enter Install Code Manually** - you can manually enter the install code from the device.

After pairing the device with install code, proceed to **Step 6**.

5. To pair the device without Install Code, tap **Add Device without Install Code**.
6. Short press upper part of the push button 3 times (< 0,5 s) on the device.

The LED blinks amber.

7. In the app, select **Confirm LED is blinking amber** and tap **Start configuration (C)**.

8. After a few seconds, a solid green LED indicates that the device has been successfully paired to the **Gateway/Hub**.

9. Tap **Done** when the pairing is successful.

Pairing device with auto scan

Pairing the device with auto scan automatically discovers the device when the corresponding device is powered on.

To pair the device:

1. On the **Home** page, tap **+**.
2. Tap **Auto scan** and then tap **Confirm**.
3. If you have multiple hubs, do Step 4 or proceed to Step 5.
4. Tap **Select hub** and select the **Wiser hub** from the slide-up menu.
5. Short press upper part of the push button 3 times (< 0,5 s).

NOTE:

- The LED blinks amber.
- Wait for a few seconds until the device search is complete.

TIP: If you want to pair multiple devices at once, perform step 5 on each device and wait for a few seconds.

6. Tap **Next (A)** and select **Connected Relay Switch 10A**.

7. Tap **Done** when the pairing is successful..

Configuring the device

Changing the device icon

You can change the device icon using the Wiser app.

1. On the **Home** page, select the device for which you wish to change the icon.

2. At the top-right corner of the screen, tap .
3. Tap edit  next to the device name.
4. Tap **Icon** to view the menu.
5. In the slide-up menu, select any one of the following (A) to change the device icon:
 - **Take photo** - allows you to click a photo from the mobile camera.
 - **Select from Icon Library** - allows you to select an icon from the app library.
 - **Select from Album** - allows you to select a photo from the mobile gallery.

Renaming the device

You can rename the device using the Wiser app.

1. On the **Home** page, select the device for which you wish to rename.
2. At the top-right corner of the screen, tap .
3. Tap edit  next to the device name.
4. Tap **Name**, enter the new name (A) and then tap **Save**.

Changing the device location

You can change the device location using the Wiser app.

1. On the **Home** page, select the device for which you wish to change the location.
2. At the top-right corner of the screen, tap .
3. Tap edit  next to the device name.
4. Tap **Location**.
5. Select the desired location from the list (A) and then tap **Save**.

Removing the device

Using the Wiser app, you can remove a device from the device list. To remove the device:

1. On the **Home** page, tap **All devices** > **Connected Relay Switch**.
2. Tap  to display more details.
3. Tap **Remove and Factory Reset Device** (A).

TIP: Alternatively, you can long tap on the **Connected Relay Switch** on the **Home** page to remove the device.

NOTE: By removing the device, you will reset the device. If you still have a problem with the reset, then refer to [reset the device](#), page 10.

Resetting the device

You can reset the device to factory default manually.

Short-press the push button 3 times (<0.5 s) and then long-press the push button once (>10 s).
The LED blinks red after 10 s, and then release the push button.

Upon successful reset, the LED stops blinking. Then, the device restarts and blinks green for a few seconds.

NOTE: After reset, the LED turns amber indicating that it is ready for pairing.

Using the device

The Control Panel allows you to switch the Relay Switch On and Off and control various settings.

On the **Home** page, tap **All devices** > **Connected Relay Switch** to access the control panel.

On the control panel page, you can see the following:

- The current state of the Relay Switch (A)
- Schedule, page 12 (B)
- Settings, page 13 (C)

Switching On/Off the device manually

You can switch On/Off the device manually. The device will provide power to the electrical appliance connected to it.
Short press the push button on the device once to switch On/Off the Relay Switch.

Switching On/Off the device using app

By using the Wiser app, you can switch on/off the device.
To switch the device on/off:

1. On the **Home** page, tap the power button (A) to switch on/off the Relay Switch.

2. Alternatively, you can navigate to the control panel, page 11 of the device and tap  to switch on/off the Relay Switch.

NOTE: The control panel shows the current state of the Relay Switch.

Creating a schedule

The Relay Switch can be controlled and triggered by a schedule. Once the schedule is set, your system will follow the active schedule. You can create or modify the schedules at any time.
To create a schedule:

1. On the **Home** page, tap **All devices** > **Connected Relay Switch**.
2. Tap **Schedule** > **Add schedule** to add a schedule.
3. Set the time (A).
4. Tap **Repeat** (B) to select the days you want to set the schedule.
5. Tap **Note** (C), enter the note and tap **Confirm**.
6. Tap the toggle switch (D) to turn on the **Notification** for the schedule. The app will send a notification that the scheduled task is executed at the time of schedule.

7. Tap **Switch (E)** and select one of the options:
 - **On** - Turns on the Relay Switch on the scheduled time
 - **Off** - Turns off the Relay Switch on the scheduled time

8. Tap **Save**.

Backlight mode

Using the Wiser app, you can select the LED indicator mode for easy identification of the device status.

To set the Backlight modes:

1. On the **Home** page, tap **All devices > Connected Relay Switch**.
2. On the device control panel page, tap **Settings**.
3. Tap **Backlight Mode (A)** and select any one of the following:
 - **Reverse With Load**: The LED on the Relay Switch is On when the device is Off.
 - **Consistent With Load**: The LED on the Relay Switch is On when the device is On.
 - **Always Off**: The LED on the Relay Switch is always Off.
 - **Always On**: The LED on the Relay Switch is always On.

For information on LED color during each modes, refer to LED Indication, page 20.

Creating a moment

A Moment allows you to group multiple actions that are usually done together. Using the Wisier app, you can create moments based on your needs (such as movie night).

To create a moment:

1. On the **Home** page, tap .
2. Go to **Moment** > **+** to create a moment.
3. Tap **Edit name**, enter the name of the moment (A) and tap **Save**.

TIP: You can choose the cover image that represents your moment by tapping .

4. In the **Action** section, tap **Add task** (B) to open the slide-up menu.
5. In the **Add task** menu, you can do either or all of the following actions (C):
 - **Run the device** - Select the devices that you want in a moment.
 - **Select Automation** - Select the automation that you want to enable or disable.
 - **Delay** - Set the delay time.

NOTE: You can add one or more actions using .

6. Tap **Run the device** > **Connected Relay Switch** > **Switch** to select either or all of the functions to add in the moment:
- **On** - Switch on the Relay Switch (D)
 - **Off** - Switch off the Relay Switch (E)
 - **Reverse Switch** - Toggle the last state of the Relay Switch (F)

7. Once all the actions are set, tap **Save**.

Editing a moment

To edit a moment:

1. On the **Moment** tab, locate the moment you want to edit and tap **⋮**.
2. On the **Edit** page, you can tap each item (such as dimmer, shutter, delay, temperature, etc.) to change the settings.

TIP:

- You can add one or more actions using **+**.
- To delete an existing action, slide the each item towards left and tap **Delete**.

Deleting a moment

To delete a moment:

1. On the **Moment** tab, locate the moment that you want to delete and then tap **⋮**.

2. Tap **Delete** and tap **Ok**.

NOTE: After deleting a moment, the device action can no longer be triggered.

Creating an automation

An automation allows you to group multiple actions that are usually done together, triggered automatically or at scheduled times. By using the Wiser app, you can create automations based on your needs.

To create an automation:

1. On the **Home** page, tap the .
2. Go to **Automation** > **+** to create an automation.
3. Tap **Edit name**, enter the name of the automation (A) and tap **Save**.
TIP: You can choose the cover image that represents your automation by tapping .

4. Tap **Any condition is met** to select any one of the condition type (B):
 - **All conditions are met**- The automation is triggered when all the conditions are met.
 - **Any condition is met**- The automation is triggered when at least one condition is met.

5. Tap **Add Condition** to display the slide-up menu.

6. In the **Add Condition** menu, you can do either or all of the following options (C):
- **When weather changes** - Select the various weather settings
 - **Schedule** - Set the time and day
 - **When device status changes** - Select the device and it's function

NOTE: You can add one or more conditions using .

7. Tap **When device status changes** > **Connected Relay Switch** > **Switch** and select either functions:
- **On:** Turn on the Relay Switch (D)
 - **Off:** Turn off the Relay Switch (E)

8. Tap **Add task** to display the slide-up menu.

9. In the **Add task** menu, you can do either or all of the following options (F):
- **Run the device**- Select the devices that you want to trigger.
 - **Moment or Automation**- Select the moment which you want to trigger or select the automation that you want to enable or disable.
 - **Send notification**- Turn on notification for the automation.
 - **Delay** - Set the delay time.

NOTE: You can add one or more actions using .

10. Tap on Effective period to set the time range for the automation. You can select any one of the following (G):
- **All-day - 24 hours**
 - **Daytime - From sunrise to sunset**
 - **Night - From sunset to sunrise**
 - **Custom - User defined time period**

11. Once all the actions and conditions are set, tap **Save**.
Once the automation is saved, it is visible on the **Automation** tab. You can tap the toggle switch on the automation to enable it.

Example of an automation

This demonstration shows you how to create an automation to switch on the light at the scheduled time.

1. Go to **Automation** > **+** to create an automation.
2. Tap **Edit name**, enter the name of the automation and tap **Save**.

TIP: You can choose the cover image that represents your automation by tapping .

3. Tap **Add Condition > Schedule**.

- Tap **Repeat (A)**, select the days you want to set the schedule and tap **Save**.
- Set the time (B) at which the automation must start and tap **Next**.

4. Tap **Add task > Run the device > Connected Relay Switch**.5. Tap **Switch > On (C)** and tap **Save**.6. Tap **Next**.7. In the **Automation Settings** page, tap **Save**.

Once the automation is saved, it is visible on the **Automation** tab. You can tap the toggle switch on the automation to enable/disable it.

Editing an automation

To edit an automation:

1. On the **Automation** tab, locate the automation you want to edit and tap **⋮**.
2. On the **Edit** page, you can tap each item (such as dimmer, shutter, delay, temperature, etc.) to change the settings.

TIP:

- You can add one or more actions using .
- To delete an existing condition or action, slide each item towards left and tap **Delete**.

Deleting an automation

To delete an automation:

1. On the **Automation** tab, locate the automation that you want to delete and then tap **⋮**.
2. Tap **Delete** and tap **Ok**.

NOTE: After deleting an automation, the device action can no longer be triggered.

LED Indication

Pairing

User Action	LED Indication	Status
Press the push-button 3 times	LED blinks amber per second. 	Pairing mode is active for 30 seconds. When pairing is completed, LED glows green for some time before turning Off. 

Resetting

User Action	LED Indication	Status
Press the push-button 3 times and hold it down once for > 10 s.	After 10 s, the LED blinks red. 	The device is in reset mode. It is reset to the factory settings after 10 seconds. The device then restarts and the LED blinks green for a few seconds and then stays amber. 

LED Indicator Mode/Backlight Mode

Load Status	ON	OFF
Reverse with load	No LED	
Consistent with load		No LED
Always Off	No LED	No LED
Always On		

Technical Data

Nominal voltage	AC 230 V, 50 Hz		
Nominal power	Load type	Load name	Load value
	 LED	LED	200 W
		Motor	1000 VA
		Iron core transformer	500 VA
		Incandescent lamp	2200 W
		Halogen lamp	2000 W
		Fluorescent lamp	200 W
		Electronic step-down converter	1050 VA
		Capacitive load	10 A, 140 μ F
Standby	Maximum 0.4 W		
Connecting Terminals	Screw terminals for max. 2 x 2.5 mm ² , 0.5 Nm		
Extension unit	Single Push-button, unlimited number, max. 50 m		
Fuse protection	16 A circuit breaker		
Nominal current	10 A, $\cos\phi = 0.6$		
Operating frequency	2405 - 2480 MHz		
Max. radio-frequency power transmitted	< 10 mW		
Communication protocol	Zigbee 3.0 certified
